There are currently more than 15,000 kids in foster care in Pennsylvania. Every day children are transitioned into new homes with a few items thrown in a trash bag. Our FLP bags are given to every foster agency we can connect with who will share our vision in ensuring that kids are able to take a bag of new belongings with them when they change homes. So far, we've had the privilege of collecting and distributing more than 17,000 FLP bags throughout 4 states. This holiday season, would you take the time to shop and pack for a bag of our requested items for a child in need? Thank you for joining with us in our mission to support and care for kids in foster care!

Baldwin Community UMC has committed to creating 13 kids bags and 12 teen bags (6 female and 6 male). It would be great if each participating household could create a bag with all the items above, but we are also accepting the items needed to create the bags. Drop off in bins at the church during office hours or at services by November 27th.
